Special Education School District Data Profile for 2009-10

The Special Education School District Data Profile is prepared in accordance with the requirement of the Individuals with Disabilities Education Act (IDEA). Each State must have a State Performance Plan (SPP) to evaluate the State's efforts to meet the requirements and purposes of the implementation of IDEA. The SPP is a six-year plan which describes New York State's performance on 20 indicators. States must report annually to the public on the performance of the State in an Annual Performance Report (APR) and each school district against the State's targets. New York State's SPP and the APR that describe these indicators in detail are available at <http://www.p12.nysed.gov/specialed/spp/>. The following report reflects only quantifiable data collected by the State. Since performance of a school district in any indicator may be the result of unique circumstances within a district, readers are encouraged to consider information provided by the district's administration in interpreting these data.

Enrollment and Classification Rate

	2009-10
• Enrollment of school-age students with disabilities on the first Wednesday in October	19
• District enrollment (public and nonpublic school-age students ? with and without disabilities) on the first Wednesday in October	132
